25X1

suggested the recommendation be rewritten to make the Executive Director senior Agency coordinator of planning."	25X1
9. The Board similarly agreed on the second and third recommendations after some discussion and clarification. asked for opinions on the future of the Information Systems Board, reminding members that much time is spent on Board meetings and the Working Groups' efforts. He also commented that he had heard more favorable than critical comments about the Board's role to date. He noted that the Headquarters Notice establishing the Board had expire	
noted that the model and the m	25 X 1
10. remarked that the status of the Board and whe	n25X1
it met were entirely up to the Executive Director.	25X1
agreed that the Board was a useful forum for	_25X1
exchanging information and coordinating positions. aske	₫25 X 1
what function the Board should serve regarding the question of information systems planning. suggested that, most	•
information systems planning. suggested that, most immediately, the Board should review and comment upon the long-range	25 X 1 ·
plans prepared by the Directorates. concluded the	25 X 1
discussion by remarking that the Information Systems Board would be	20/(1
continued until further notice but that he saw no need for another	
Headquarters notice to that effect. The Board expressed satisfaction	
with this decision.	25 X 1
ommented on the third recommendation, noting that the requirement for a directorate plan was interesting	25X1
since, in practice, the offices would have to do the planning. commented that the directorate plan may well consist of number of office plans, but that the directorates are the ultimate organization responsible for providing central services and that office plans should be coordinated with each directorate just as	€ 25 X 1
directorate plans should be coordinated to produce an Agency-wide plan mentioned that the DS&T already has a long-range information handling plan underway, and most other Board members agreed that their Directorates were prepared to draw up such a plan.	25X1 25X1
12. next asked the Board to discuss the Working Group's fourth recommendation:	25X1
to establish a small three to five person staff, reportito the Executive Director, to develop a planning methodology, integrate the directorate plans into an Agency-wide plan, and evaluate information systems performance against the long-range plan.	
planning, reminding the Board that the Information Systems Architect study had recommended a large staff to handle such issues. He noted that his small Planning Staff was formed to advise him on the whole array of complex technical issues confronting the Agency including information handling and that he was not inclined to increase the size of that Staff despite the recognized need for a single point of	ig e

coordination, both within the Directorates and at the Agency level.	
He-stated that he needed to study the options available since	9-1-
information systems planning is a serious management problem which	
obviously is not going away. He rhetorically asked if the Executive	
Committee should revisit the idea of a fifth directorate	051/4
particularly in the telecommunications context.	25X1
and felt that given Directorate	.25X1
plans no staff would be needed since any inconsistancies or	•
conflicts probably could be dealt with on an ad hoc basis before each	Į.
budget submission is made. disagreed, suggesting that the	25X1
resolution of differences is not an easy job when offices and	20/(1
directorates areacompeting for scarce resources.	25X1
complimented the Working Group in laying out all the options but	
suggested that the crucial point in good planning was not who wrote	
the plan but that the planning process be synchronized with the budge	.
cycle. also opposed a full-time	25X1
planning staff handling the planning function.	25X1
suggested that, since technology is changing so rapidly, the Agency	
should adopt a planning mechanism that is more flexible staffs have	ve i
a tendancy to percetuate themselves and become moribund, he noted.	
agreed that a staff was not the right answer but	25X1;
supported the concept of centralized Agency planning accomplished	
within a fifth directorate. agreed that planning had	(25X1
be syncronized with the budget cycle and, for that reason, supported	05344
placing the function in the Comptroller's office.	25X1 ₃
